TWENTY-EIGHTH DAY - JUNE 3.

Petitions were presented, from Kan, Hawaii; to allow any one the free privilege of collecting pula on government lands—tabled; and for a provision in the laws allowing road supervisors to take the people to road labor to any point within the district regardless of distance-referred to Committee on Internal Affairs.

Mr. Dowsett, of the Committee on Claims, in the matter of the petition of James Makee, that the duties on two miles of pipe be refunded him, reported, that in their opinion this pipe was an extraordinary requirement for the machinery of a sugar mill, and they recommended that the prayer be not granted. Report adopted. Also, on the petition of A. Doir in for pay as vaccinator, that it had been proved to the satisfaction of the Committee that Mr. Doiron had recived during the years 1860 and 1861, \$359, for services as vaccinator; hence they recommended that this petition be tabled. Report adopted. And further, in the matter of the petition of C. R. Bishop, claiming for the estate of Keohokalole, &c., reimborsement for certain lands of hers sold and leased by Government, the Committee recognized the justice of the claim. The report was adopted, and the Finance Committee instructed to insert in the appropriation bill the

sum of \$339,80 for said estate. The following bills passed their third reading ; Mr. Webster's bill providing for elections where the number of ballots so exceeds the number of names on the clerk's roll as to affect the election ; and Mr. Harris' bill to facilitate the collec-

Mr. Pomaikai introduced a resolution for paying the expenses of the witnesses in the matter of the contested elections of Labaina, and Puna, Hawaii. Mr. Knudsen thought that witnesses who had voluntered their testimony and were personally interested in proving the invalidity of an election, ought to be willing to pay their own expenses. Mr. Kipi thought that if such a precedent of paying witnesses was established, we should often receive petitions against the validity of an election from persons merely desiring to get a squint at the metropolis free of expense to themselves. The resolution was with-Mr. Nauanu read the first time a bill amending

Section 1004 of the Civil Code, making more stringent the law in reference to the suppression of prestitution. Mr. Baldwin was in favor of the proposed measure, but thought the bill defeetive, and hence moved that it be referred to a Select Committee. It was referred to Messrs. Baldwin, Nuuanu and Kaakua.

Mr. Rhodes read the first time a bill authorizing road supervisors to take the people to road work to any point in the district regardless of distance, with a deduction of one day for each additional five miles of travel. Ordered for

Mr. Harris read the first time a bill providing that any court, guardian, or administrator upon application of parties interested, or without application, may order the payment into the Public Treasury of moneys abiding the ascertamment of the right of such money, subject to further order of the court, such moneys to draw 8 per ct. interest if deposited for a period longer than six months. Mr. Harris stated that the provisions of this bill were in accordance with the custom in other countries, where guardians and trustees per diem. Ordered to be translated. were obliged to deposit such funds in public securities, these being generally considered the safest. Adjourned.

TWENTY-NINTH DAY-JUNE 4. Petitions were presented from Lahaina; to have pasture lands fenced; and that the several Governors of the Islands serve as School Treasu-

rers without additional compensation. From Honolula; that parents and guardians having four or more children be exempt from personal taxes, to encourage prolificness. From Kobala, Hawaii; for a hospital for that

district; claiming the validity of the Kohala election; that all the Attorneys be dismissed from office except the Attorney of Oahu; that the Representatives of the people be selected from the ranks of those destitute of employment; for but one Judge for the Supreme Court; for but one District Judge for North and South Kohala, the same to be a Hawaiian, not a foreigner; for \$100, for a road from Nuihi to Kalua; that the road tax be reduced to \$1 or three days labor; that sick persons be exempt from the road tax; that dead men and their property be exempt from taxation; for a pound for South Kohala; and that \$3000 be appropriated for pipes to convey water from Waimea to Kawaibae for the benefit

From Makawao, Maui; that horses &c., be included under the property tax; and for a protective duty on bread stuffs.

Mr. Knudsen, of the Committee on Elections, in the matter of the contested seat of the member from Puna, Hawaii, reported, that it had been proved to the satisfaction of the Committee, that a youth under 20 years of age had voted for Mr. Makaionta; and rejecting this would leave the number of his votes equal to those of a rival candidate. Hence the Committee recommended that the seat for this district be declared vacant. The report was adopted and the clerk instructed to order a new election.

Mr. Widemann, of Finance Committee, presented the Bill of Appropriations for the ensuing biennial term, with a report signed by all the Committee except Mr. Harris, he dissenting on certain items of the Bill. The report states as

The bill of appropriations proposed by the Minister in his report, provides for an expenditure of \$484,243, a red ction of about \$150,000 from the amount contained in the appropriation bull for 1869. About \$120,000 of this reduction is a real saving to the e-matry (a cortainment of \$50,000 annual expenditure,) the balance of \$120,000 is composed of amounts providing for the renewal of the National debt, and other items appropriated for public improvements, and can therefore hardly be looked upon as a coming reduction of expenditure.

Communications received from the Minister caused your

Conneittee to add to the Bill of Appropriations, as reported by the Minister, the sum of \$14,000. Due regard to the maintenance of the efficiency of the Government caused your Committee to further add to the bill \$5 000 in the Judiciary Department, and \$2,000 in Monoclaneous Expenditure.

These amounts (31,000) added to the Ministerial Bill would

give in grand totals the sum of \$515,000.

The Minister's estimate of the revenue for the ensuing fiscal period is \$492,000. This estimate, in the opinion of your Com-

mittee, could not be legitimately increased.

Your Committee, with a view to keep the expenditure within
the estimated revenue, have felt themselves obliged to still further reduce the expensiture, and have adopted, to effect this, a systematic reduction of salaries of Government officers.

The bill new reported, while in the opinion of your Committee

the same time amounts to \$457,854 only, and is consequently The proposed Appropriation Bill was ordered to be printed.

Mr. Rhodes, of the Select Committee on the Steam Navigation Bill, reported by a new bill, somewhat modified from that first presented by him, the government subsidy of \$250 per month for each steamer employed in carrying the mails having been omitted, and a new section introduced, providing that the company make quar-terly exhibits of their affairs to the Minister of Interior; and when it appears that they are enabled to pay at the rate of fifteen per cent per annum on the stock, then they shall introduce and maintain a second steamer. The bill was ordered for Committee of the House.

Mr. Kaakua introduced another resolution for paying the expenses of the witnesses in the matter of the contested elections. Referred to the Committee on Elections. Mr. Harris' bill, providing for payment of

certain moneys into the Public Treasury, passed its second reading; supported by Messrs Webster, Widemann, Dowsett and Kanuwai; Messrs. Kaakua and Kauhane arguing against it. Adjourned.

THIRTIETH DAY-JUNE 5. Petitions were presented, from Kaupo, Mani : that salaries of government officers be reduced; that the horse tax be reduced to 50 cts., and dog tax increased to \$1 50; that the school tax be reduced to \$1 00 for childless persons; that costs of court be reduced; for reduction of port charges; for rem wal of the restrictions on awa; that persons to instruct the people in the art of weaving be employed at government expense; that parents be obliged to clothe their children, and build spacious houses so that the sexes might be kept properly apart, and put their children to work. From Hanuaula, Maui; that the legal weight of a pai ai (package of poi) be 30 lbs.; that konobiki fish be free; that tax collectors perform their duties during the interval from September to February following, and assessors from July to August; that recreant husbands and wives be punished by \$5 00 fine or two years imprison-

Makena and Kabului be ports of entry; that the pay of assessors be reduced to two per cent.; that the Governors act as tax collectors; that persons getting intoxicated on potatoe beer be punished y \$200 00 fine or two years imprisonment; that \$15 be the price of a license to sell goods; for repeal of the pound laws; that District Judges be appointed by the Governors not by the Supreme Judges; against the Act allowing prostitution, that prostitutes rather be imprisoned for life at hard labor on the sentence of any District Judge; that government lands be sold at a uniform price of 50 cents per acre for good land and 25 cents for poor; that appeal cases be allowed 20 days for the payment of the costs; that constables be exempt from personal taxes; that constables be

authorized to arrest without warrants. From Kohala, Hawaii; that dead animals be exempt from taxation; and that divorces be granted cheap to poor people.

From Kalihi, Oahu; that all the road labors of their district be expended on a certain road. From Ira Richardson, of Honolulu, that he be remunerated \$593 55 for his extra labor and expenditure in building a bridge in Judd street, Nuganu. Tabled.

Mr. Manini, of the Committee on Military, recommended, as the wish of a majority of that committee, that \$43,537 95 be appropriated for the War Department. Report ordered to be considered with the Appropriation Bill. Mr. Rhodes, of Committee on Internal Affairs,

laid before the House a copy of the contract with Mr. Fornander to perform the Government Printing, (printed in another column); also a report stating that the Government Press was leased November 2, 1861, to Mr. Farnander, for the sum of \$800 per annum; the printing for the government to be done by him for \$3,800 per annum; that up to Nov. 2, 1861, of the \$23,200 appropriated for the Press by the last Legislature, \$19,695 86 had been expended; and deducting from this \$6.982 27 receipts of the Press for the same period, would give \$12.713 59 for the nineteen months, or about \$8,030 per annum as the cost to the country for the Government Printing; thus showing by the new arrangement an annual saving of \$4,230; that the terms of the contract between the Minister and Mr. Fornander, omitting the lease of the Press, were precisely in accordance with an offer made by Mr. Whitney to the Minister in 1858; that at the time of the contract \$1,234 42 worth of paper was sold by government to Mr. Fornander, payable on demand, this sum still remaining unpaid; the re-port further called attention to the delay of ministerial reports, which had caused-serious inconvenience and hindrance of the public business that most of the Reports had been handed in to the printer so late, that with the limited resources at his command, it was impossible to complete the printing of all the Reports at the opening of the Session; hence the committee recommended that the Minister be respectfully requested to direct that in future every possible precaution be taken to prevent unnecessary delay in presenting the Reports to the Legislature; and further, that the action of the Minister in leasing the Press and Office and contracting for the printing, be fully approved by the House. The report was

adopted. Mr. Knudsen, of the Committee on Elections, reported on the resolution of Mr. Kaakua for paying the expenses of the witnesses in the mat ter of the contested elections, that the witnesses subpoenaed by the House be paid each \$2; but they recommended that the laws be amended so as to oblige hereafter the petitioners against the validity of an election to furnish the witnesses.

Mr. Kanuwai read the first time a bill providing that pound masters be paid by a percentage on all monies received by them instead of rates Mr. Kaauwai also read the first time a bill amending Chap. 13 of the Penal Code, by defin-

ing the act of adultery. By motion of Mr. Dowsett the bill was rejected. The same gentleman also read the first time a bill to exempt from taxation persons convicted of infamous crimes, unless such be pardoned by the King. By motion of Mr. Baldwin this bill was rejected. Mr. Moku read the first time a bill increasing the

nomestead privileges. Ordered for Committee of the Mr. Kahookaumaha read the first time a bill to increase the pay of Lunakulas. By motion of Mr. Knudsen the bill was rejected, as transcending the powers of this House.

Mr. Harris' bill, providing for the deposit in the

Public Treasury of certain moneys, passed its third Mr. Knudsen introduced a resolution that the Committee on Finance be instructed to inquire and report, what had been done in the matter of the \$8000 lost from the Custom House in 1857. Passed. In Committee of the Whole, Mr. Rhodes' amended Hawaiian Steam Navigation bill was taken up.

Messrs. Webster, Widemann and Rhodes supported it with the general arguments presented in the report of 234 Day of the Session. Mr. Dowsett stated that he had moved the rejection of the bill as first presented for its monopolizing character, particularly asking \$250 per month for car-

rying the mails, which for the three steamers proposed would amount to \$9000 per annum; but, that he was n favor of the bill as now modified. Mr. Kuapa opposed the bill on the ground of sundry personal tribulations and grievances in his ex-

perience of Kilana travel. The subject still pending, the House adjourned. THIRTY-FIRST DAY-JUNE 6.

Mr. Baldwin, of the Printing Committee, reported the Appropriation Bill printed in both Hawaiian and English. Ordered for Monday.

Mr. Knudsen, of the Select Committee on the petition from the members of the Hawaiian Guards praying exemption from personal taxes, &c., reported that should these privileges be granted to this comp ny, other companies would with equal justice claim the same rights for themselves, which would involve a loss to the Public Treasury of \$1400 per annum. Hence the Committee recommended that the petition be tabled. Mr. Webster regretted that the Committee should report adversely to the prayer. and moved that further consideration be postponed until a bill embodying the views of the Minister of War on the subject of militia, had been presented to the House. Motion carried.

Mr. Kipi read the first time a bill providing that persons petitioning against the validity of an election shall furnish at their own expense the witnesses to prove such invalidity.

Mr. Rhodes' bill to encourage inter-island steam navigation was again discussed in Committee of the Whole. Messrs. Baldwin and Hitchcock made exception to certain parts of the bill. Messrs. Widemann, Webster, Dowsett, Rhodes and Harris supporting it, the bill passed section by section, some of the native members every now and anon bitterly deploring the numerous privileges granted to the damage of the Public Treasury. Adjourned.

THIRTY SECOND DAY-JUNE 7. Mr. Kipi's bill obliging the petitioners against the validity of an election to furnish the witnesses, was read the second time, and ordered for Committee of

the Whole. Mr. Kankua read the first time a bill providing that District Justices be paid by fees in cases where the Legislature makes no provision for them. The bill was rejected on motion of Mr. Knudsen, on the ground that the Civil Code contained a like provision. Mr. Widemann read the first time a bill authorizing the Minister of the Interior to grant licenses to sell drugs and medicines, at \$40 per license for Honolulu and Labaina and \$10 for any other district. Mr. Widemann stated the object of the bill, that the Legislature of 1860, by unwittingly repealing Sections 83-86 of the Civil Codes upposing them to refer merely to the vending of opium and poisons, had thus repealed the only law obliging any one to procure a license to sell drugs and medicines. The bill was ordered to be translated.

Mr. Harris read the first time a bill providing for the perpetuating of testimony, by authorizing the taking the deposition of witnesses for any future action, or action in posse. Ordered for Committee of

Mr. Rhodes' bill for the encouragement of interisland Steam Navigation, passed its third reading. The Speaker announced a message from the Nobles, that they had passed the bill providing for elections where the ballots exceed the names enrolled, and the bill to facilitate the collection of debts.

Mr. Harris read the first time a bill amending the Act to prevent married people from forsaking one another, by giving District Judges also jurisdiction in such cases. The rules were suspended, the bill read a second time, and debated in Committee of the Wnole. Mr. Harris thought it a species of chronic peculiar to married Hawaiians to forsake one another, and that, as a District Judge was more likely large number of to appreciate petry tribulations and grievances of married life, jurisdiction in such cases ought to be Also in hearing, the blight having entirely disappeared from

ters of the House. Mr. Webster moved that the porion of report of the Committee on Finance referring to the estimated revenue and expenditure te read. Mr. Knudsen thought this unnecessary; that the report had been but recently read, and all were familiar with it. Motion lost. Mr. Harris asked where they were going to obtain an equivalent for the \$13,000 per annum which they were about to strike from the estimated revenue. Mr. Buldwin suggested that it might be found in certain items of the proposed Appropriation Bill. Mr. Harris would rather seek an equivalent by cutting the horses throats, and Mr. Widemann thought it utterly impossible to reduce further the proposed estimate of expenditure. The bill passed without further debate by an overwhelming majority. Adjourned.

The contributions sent by the Stella, including those known to have gone by sailing vessels weeks ago, will make a show of which the United States will not be ashamed. OFFICIAL REPORT ABOUT MANASSAS.-The Joint Committee on the Conduct of the War has made a long report regarding the Rebels at Manassas, and of the remains of the U\_ion officers and soldiers killed. They say that facts are disclosed of a painful and repulsively shocking character. That the Rebels have growned their rebellion by perpetrating deeds scarcely known even to savage Indians. Before the Committee were men occupying high position in military and civil life, differing in political opinon. Their judgment is that the rebel crimes exceeded the excesses of the Sepoys in India. Our soldiers were buried face downwards, or worse, left to decay openly. Their bones were carried off as trophies, ometimes as testimony bones, to be used as personal adornment. One witness deliberately avows that the head of one of our most gallant officers was cut off by a Secessionist, to brain, the skull to be used as a drinking cup on the occasion of his marriage.

NEW YORK, May 23 .- The following is from the Baltimore American's Fortress Monroe correspondence : But little change in affairs had occurred at Norfolk. The Mayor and members of the City Council still refuse to take the oath of allegiance. All intercourse with the people of Norfolk and Portsmouth has therefore, been stopped. Gen. Wool has sent a proclamation to the people of Norfolk, this morning, notifying them that the matter is entirely in their hands, and as soon as they would acknowledge the supremacy of the Government, they will en- apply to by its fostering care; but while they remain as at resent, in a rebellious mood, they will be cut off from all the advantages of trade and commerce, and will be governed by strict martial law. Most of the stores are now open, and the sale of such goods as they have is progressing. As far as can be ascertained, no one now is willing to receive Confederate money at par. Business is mostly done in small notes. The Virginia banks and Government notes are received with avidity. The Union men are still afraid to express their sentiments in defiance of the rebeliious spirit around.

New York, May 24 .- A gentleman just arrived from North Carolina gives the following interesting item of news: Gen. Burnside has seized all the Commissioners of the town of Elenton, and taken them to his head-quarters at Newbern. They are to be held as hostages for the safe return of the Union pilot who was seized by the Confederates while on a visit to his wife. It is reported that the Confederates have determined to hang him. Gen. Burnside intends that all the Commissioners shall swing in case the Confederates

execute their threats. The Mignesota will proceed to Norfolk to-morrow. and the whole fleet will have abandoned Old Point and taken their position at the naval station. Nu merous wrecks sunk in the harber and river by the rebels are to be removed forthwith, including the wreck of the Merrimac.

The opinion is gaining ground that the rebels will not give battle at Richmond, but evacuate that city. The News.

FEATURES OF THE LATE NEWS .- The severe retaliatory measures adopted by the Government are producing their due effect. Every day develops additional proofs of a desire among large numbers in the insurrectionary States to return to their loyalty. The greatest disaffection is not merely asserted, but positively known to exist among the armies of the Southern Confederacy. At Corin:h a number of companies, amounting to several regiments, have been under arrest, and similar difficulties have prevailed in Davis' army since its retreat from Yorktown Five hundred deserters had gone over to the Federals in a body, and still they were flocking in from all arters, reporting that nothing but the impossibility f getting away prevented others from joining. A strong Union sentiment exists in the States over which the recent conquests of the Federal arms have extended—especially in Virginia. Incurable dis-unionists are flocking further South. The plan of burning cities and destroying property is becoming very unpopular except with the landless classes. The Senate has passed a resolution requiring the President to ascertain in which of the States insurrection exists, whereupon real estate is to be charged with its due proportion of the direct tax imposed at the last session. The severest measures, however, exceeding in their stringency the ordinary confiscation acts of the day, are those by which the slave property of the States in insurrection is declared

The great armor-clad nondescript, the Merrimac. has gone the way of all Rebel vessels at last, to the chagrin of those who fancied that she was destined to our navy from the seas. The plating being an afterthought and very cumbrously done, the vessel, which on her first launching as an iron plated war steamer, merely rolled off the stocks and began sinking, was consequently compelled to confine her operations to quiet water. The appearance of the Mentler, insignificant in appearance, yet carrying an armament for the destruction of a citadel, appears to have af-By the bark Speedwell, we have San Francisco frighted the officers and crew of the Rebel zunboat, whose crew presently deserted her and blew her up, to prevent her from falling into Federal hands. Norfolk surrendered through a delegation of its citizens, on the appear nce of the Federal army, and Norfolk has been taken and occupied by the thus two leading objects of the war in that section are accomplished. The Rebels are now hemmed in on every side, although for a brief time the way for The Gosport Navy Yard, with many steamers, retreat a short distance further Southward seems open to Beauregard, but foreign powers are now setting their faces decidedly against the rebellion, so The Merrimac has been blown to pieces by the that but few points of any consequence remain to be conquered. The war is evidently nearly at an end, The Confederates have long since abandoned hope, Pensacola is now occupied by the Federal in, except on compulsion.—S. F. Herald.
